Professional Summary

Data Analyst with 2 years of experience in Business Intelligence, analytical solutions, and reporting, specializing in Power BI (DAX, Power Query), SQL Server (T-SQL), data modeling, and ETL processes. Experienced in developing dashboards and KPIs, automating reports, and performing data transformation and cleansing to ensure data consistency. Passionate about translating complex data into actionable insights that optimize operations, reduce manual workflows, and drive strategic decision-making.

Technical Skills

- **Data & Programming:** SQL Server (T-SQL), Python (Pandas, Scripting)
- **BI & Visualization:** Power BI (Advanced, DAX), Looker Studio, Figma
- **Automation & Tools:** Excel (Advanced), Google Sheets, Power Automate, AppSheet
- **Languages:** Spanish (Native), English (B1 – Intermediate)

Experience

Data Analyst

Oct 2024 – Present

Ministry of Culture – Statistics Office

Lima, Perú

- Developed and optimized Power BI dashboards by implementing SQL-based data sources and automating data extraction processes from SQL databases, replacing manual Excel-based reporting.
- Designed structured data models to ensure data accuracy, consistency, and reliable reporting.
- Automate data workflows using Excel and Power BI, reducing validation times and improving efficiency in report generation.
- Increased dashboard adoption by 70%, enhancing leadership visibility of key operational and financial indicators.

Management Analyst

Jul 2024 – Sep 2024

Oca Global

Lima, Perú

- Developed and maintained business-critical dashboards using Power BI, enabling real-time tracking of inventory, workforce, training, and fleet performance.
- Designed and implemented end-to-end data flows and ETL processes across multiple business units, ensuring centralized and accurate reporting.
- Automated reporting workflows using Power Apps and Power BI, significantly reducing manual and repetitive tasks.
- Transformed unreliable data into accurate datasets through rigorous data cleaning and standardization processes in Power Query.

Junior BI Analyst

Nov 2023 – Apr 2024

Pacific Cooperative

Lima, Perú

- Developed customized Power BI dashboards based on business requirements, enabling stakeholder data-driven decision-making.
- Validated SQL Server (T-SQL) scripts and optimized dashboard performance to ensure data integrity and continuous automated updates.
- Automated reporting processes and documented BI solutions, improving overall operational efficiency and user adoption.

Education

Bachelor's in Business Administration and International Business

Mar 2017 – Jul 2023

Universidad Peruana de Ciencias Aplicadas (UPC)

Lima, Perú

Certifications

- **SQL Server for Analytics Specialization** – DMC Institute
- **Business Intelligence with Power BI (Advanced Level)** – Edúcate Perú Consultores
- **Excel Skills for Business: Advanced** – Macquarie University
- **Diploma in Data Analytics** – Universidad Privada San Francisco de Asís (USFA)
